

It Wears and Washes Well

DODS-KNIT winter underwear is worn by many thousands of men and their families in all parts of the Dominion from the Atlantic to the Pacific coast.

It is bought year in and year out by people who learned years ago to know its qualities. Dods-Knit wears well and washes well, too. It is made to fit perfectly from specially-selected wool. It is strongly seamed, and finished to the smallest detail of perfection. Dods-Knit Underwear is the only kind to buy for people engaged in heavy, outdoor employment. There are garments in two-piece and combinations for every member of the family. Ask your dealer to show you the line of

OUR TRAVELS SOUTHWARD

To The Editor:

Leaving camp at Miles City, Mont., we started across country to Baker. We took a cut-off from the Custer-Buffed highway, which would make it some 25 miles shorter from Miles City to Baker. The roads were dry but very hilly, we had to climb one big hill to get up from the Missouri

stayed over a day, and visited with some relatives, and with a friend, Mr. Seyer, who had been in Canada to see us. We had a real nice visit while there, lots of watermelon, muskmelon, and to forget the pheasants (we had two or three meals of them). We left Selby Oct. 12, in the afternoon. We got as far as Andover, here we stayed with a Mrs. Vass, as there was no auto camp here. We found her a very nice country. She gave us a drink of rhubarb wine, also a dozen eggs, and would not receive any pay for same.

On the 14th we stopped at Brookings. Here they have a very good camp. It happened to be right across from a nursery, and the nursery was adjoining the University grounds. A Mr. Carl Hansen is the owner of the nursery, he is a son of Prof. Hansen of the University. We went all through the nursery, but did not find anything that interested us very much, as we had a better stock of shrubs, and flowers in Alberta. While that country is getting better than Montana, it is not what I would call a real country of homes. While they have plenty of trees here and beautiful looking lots, they also have a shortage of rain. On the 15th we started for Sioux City, Iowa, here we had lunch at a hotel, all gravelled highway, and comparatively level country, but here again, we lost another wheel off our trailer. Here we found lots of corn and the country began to look more settled.

Getting to Sioux City, we found a real good auto camp, and had all kinds of watermelon at 25c each. Gas was getting cheaper, and it seemed as if we were in a different country altogether. The rest of our trip will follow in due time.

Yours truly,
P. C. Petersen and Family,
320 3rd Street, Co. Bluffs, Iowa.

ZION LUTHERAN CHURCH NOTES

(Held over from last week)

On Sunday, Nov. 20, the Wetaskiwin circuit of the Evangelical Lutheran Church (Missouri Synod) met in the local church. Members of the congregations of the circuit, namely, Nisku, Leduc, Brightview, Peace Hills, Camrose and Wetaskiwin were present, and in evidence of the interest taken in the meeting, by the young people, the church choir from Nisku and Brightview came in force and brightened the proceedings with well rendered chorals and anthems. The clergy of the circuit, Rev. Ruedicke of Camrose, Rev. Oblinger of Brightview, Rev. W. Effort of Leduc and the local pastor were all present, as were also Revs. C. Thies and A. Schwermann of Edmonton. The proceedings were opened by a devotional service in the morning, Rev. Effort preaching the sermon from John 16, 1-4. The afternoon session was opened by the local pastor who spoke on "The Church activities of the Missouri Synod," briefly referring to its home missions in the U.S., Canada, Mexico, Brazil, Argentina, West Indies, and Hawaii, its work among the deaf muties, the blind, the institutional missions among the Jews, Italians, Spaniards, Poles, Czechoslovakians, Lithuanians, the Finns, Estonians, etc. In addition to these there were the hostess missions among the Indians of the United States, missions in India and China, and the successful work among the Negroes in America. These activities already demanded an army of willing workers and cheerful givers. In addition to this work and supplementary to it, Synod had to maintain colleges for the training of its ministers, missionaries and teachers. Eighteen colleges and seminaries were owned and controlled by the Missouri Synod. Although the Missouri Synod did not have to house canvassing, nor solicited donations from non-members, nor raised other than voluntary contributions from its own members, these and other things were done in 1926. The Synod's publishing house, which is the largest of its kind in America, published in the interests of

and blessings of the colleges and educational institutions of the Missouri Synod. The present, seminary at St. Louis was built from donations by members of Synod at a cost of \$3,500,000. Splendid support was given by many of our Canadian Lutheran congregations to our Edmonton College which is one of the most up-to-date buildings in Western Canada.

Rev. Thies covered the inner mission field of the Missouri Synod in Alberta and British Columbia. Great strides had been made in the past few years and at present a larger number of new labourers had entered the field than ever before in the history of this district. From Vancouver to Alaska and across British Columbia and Alberta the chain of established preaching stations was rapidly increasing, many of the men doing the work of three or four uncomplainingly for the sake of the Master and the ransomed souls.

Rev. W. Effort concluded by giving a brief survey of the financial situation, showing the requirements for the coming year, the funds raised in the past and urging all present for the love of the Saviour and as living branches in Him, the vine, to bring forth also in their financial support of His work the fruits of faith.

In the evening, Rev. C. Thies preached to an appreciative audience, thus concluding a most edifying and instructive day.

CARE IN SELECTION OF NEW SETTLERS

Winnipeg, Nov. 25.—"There is no reason for anxiety regarding the European immigration. The most careful selection has been made and is the chief feature of our work." This statement was made at the Port Garry hotel here by Rev. Dr. Frank Hoffmann, who has just returned to Canada after two years in Europe in the service of the Canadian National Railways as certificate issuing officer. With headquarters at Vienna, Dr. Hoffmann examined prospective emigrants from Austria, Hungary, Czechoslovakia, Yugoslavia and Rumania.

"In two years," he said, "I consulted more than 25,000 applicants. As an indication of the care with which the Canadian National system, working with the steamship lines, selects these new Canadians, I may point out that of the 17,000 I passed, only two were afterwards rejected."

"We considered the physical and moral well being of every applicant, as well as his ability to pay his way and to take up life in Canada and the types we selected were of the best. We were anxious to get none but good, sturdy farmers, and those we sent were of this sort. They came of a farming stock generations old, were hard workers, with a modest desire for comfort and a great urge to branch out for themselves in a new country. The interest in Canada is astonishing."

**1928 RADIO MODELS
BY WESTINGHOUSE**

Have These Notable Advantages and Improvements

A. C. Batteryless Sets:
Operate on either 25 or 60 cycle alternating current. This is a big advantage should you move where there is different A. C. supply.
Designed to use new Westinghouse A.C. Radios UX-226 and UX-227, which operate on either 25 or 60 cycle "Raw" alternating current through a step-down transformer in the set. These Radios avoid the hum and "A.C." noise which have been the chief disadvantage of many types of A.C. Batteryless sets in the past. The UX-171 Power Tube is employed for loud speaker operation.

Battery Operated Sets:
Designed to operate with "A" Autopower and "B" Eliminator Units—batteries, without requiring special neutralization.
Designed to use the new Westinghouse Radios UX-201-B requiring half the "A" current of the UX-201-A which has been universally adopted by radio manufacturers in the past. Owners of previous Westinghouse models can use the improved tube by having their Westinghouse Dealer attend to the re-neutralization and installation of correct resistance at a cost of \$3.25 up, plus express charges.

Both Batteryless and Battery types are made in Five Head Six-Tube Models. Five-tube models employ controlled regeneration which adds greatly to the selectivity and sensitivity of the set. These sets are absolutely non-reducing and cannot interfere with the neighbor's reception.

Single control station selection, of the drum type are used in all models for best appearance and utility. The Dual Cone Speaker, finest ever produced, is built in appearance and quality. This Westinghouse achievement recreates with realism, voices and all notes of the musical scale with even implication, handling enormous power without distortion or blurring. All Westinghouse cabinets are finished in Duco which bristles out the full beauty of the wood, and is unexcelled for durability.

Prices of the "A.C." Batteryless sets from \$225.00 to \$285.00 complete.
Prices of the Battery Operated Sets from \$78.00 to \$180.00 without accessories.

THURSDAY, DECEMBER 1, 1927

THE OPEN ROADS OF WINTER

When a blustering nor-wester or a bitter gale from the southeast sweeps over the snow-covered face of the country then trouble is afoot for those

who travel, and those whose public obligation it is to see that the roads are kept in shape for traffic.

The winter of 1926-27 virtually brought highway motor traffic to a standstill when restless furies of snow piled into huge drifts along northern Alberta roads and made it impossible for autos to keep their own tracks open. Already this year snowfall and frost have given a hint of troublous traffic months ahead, and unless more systematic measures are adopted in clearing the roads motorists may expect to battle once more with king Winter under conditions that offer little prospect of easy success.

Thus far the provincial highways department has steadfastly refused

to undertake the clearing of the roads during the winter as part of an official obligation, though there has been no hesitancy in accepting responsibility for the maintenance of main highways in the snowless months of the year. In other northern provinces and states it has been established by practical tests that public funds expended in keeping roads open for traffic during the winter have been more than justified by the increased volume of business transacted.

Undoubtedly Alberta is reaching the stage where some definite policy must be adopted for maintaining winter motorways. Already a number of municipalities and service clubs in the country have outlined plans and pledged themselves to keep certain

principal traffic arteries free of snow during the coming winter. With a heavy fall of snow at any time the demand for more extensive organization of this kind would increase rapidly. Probably the government will be required to accept a measure of responsibility in this connection in view of the considerable mileage of main highways now constructed. Certainly with the Edmonton-Calgary highway gravelled for the entire distance between the two cities the travelling public would raise an outcry were through and inter-town traffic to be blocked by snowdrifts for any appreciable time during the winter.—Good Roads Magazine.

Look at the label on your paper.

Stoker Still Selling the Bankrupt Stock

All MEN'S, LADIES' and CHILDREN'S UNDERWEAR, SWEATERS, HOSIERY, Etc., must be cleared. Prices greatly reduced.

FARMERS BUY BIGGER CARS

"We were getting along pretty well last fall," said a prominent implement dealer recently, "or at least we thought we were. Crops were good and our farmers were optimistic. After the smoke of the battle had cleared away we found that the principle thing that had happened was that far too many had traded their Fords for large sedans. It was an amazing thing to notice the number of new cars in the territory as soon as a little money began to show up. I sold a good many of them myself. I am not particularly proud of some of the sales I made but I made them just the same. What else is a fellow to do? My stock excuse is that if I don't do it someone else will. As to what this program is going to do to our country I do not know. I don't believe that anyone else does. It is one of those things that works itself out. As to whether we are going to profit by this situation or become victims of it I don't know. It is beyond me."

ALBERTA RIGHT-OF-WAY NOT TOO WIDE

In the province of Alberta we have a main highway system of 2,500 miles and a district road system of 10,500 miles.

Of this amount, 1,002 miles of main highway have been constructed to our standard car specification, 485 miles have been gravelled and 23 miles treated in clay surfacing.

By these figures it will be readily ap-

preciated that in common with other prairie provinces we must, for some time to come devote a large percentage of our annual appropriations to the earth type of road.

It must also be remembered that no gravel is placed upon our highways until a grade has been completed on which to receive the material, so that an improved type of surface demands first of all attention to earth construction.

In Alberta we have sixty-six feet of road allowance, and this is frequently insufficient. Deduct from this effective area a distance of from five to fifteen feet required by established pole line installation on tangent, and as much again at road intersections and curves, and you will realize that with an aver-

age quantity in excavation of 5,200 cubic yards per mile, we experience great difficulty in proceeding with our work within the specified boundary limits.

The NEW CAR

ALL THAT engineers have learned, that millions of owners have experienced in nearly a quarter of a century, have made possible this car which is today as far ahead of its time as was the famous Model T in 1908. Sixteen million automobiles, serving their owners in jungle and desert, on mountain and plain, on boulevard and highway, were the test cars that have made this new automobile possible. Its advent marks a new epoch in automotive engineering in point of inbuilt quality—niceties of mechanical design, lavish use of the finer metals, precision in delicate machining processes.

Nowhere in its construction has there

been slighting of either major essentials or minor details. From its outermost hub-cap to its innermost bearing, the new Ford car epitomizes engineering skill to a degree unexcelled in the annals of motor car manufacture.

This entirely new car surpasses the accepted standards of light car accomplishment; sweeps aside all boundaries of price class; establishes a new standard of acceleration, speed, power and smoothness that heretofore has marked only expensive cars as fine cars.

Yet Ford precision in large scale production, unparalleled in the history of automotive manufacture, places this car within the reach of every purse.

An advance showing of the New Ford Car will be made Friday, December 2nd, in the following cities:

Halifax
Peterboro
Winnipeg
Saint John
Toronto

Regina
Quebec
Hamilton
Saskatoon
Sherbrooke
Brantford

Moose Jaw
Montreal
London
Calgary
Ottawa
Windsor

Edmonton
Kitchener
Fort William
Vancouver
Victoria

As rapidly as increasing production permits these public showings will be extended until all of the 736 Ford dealer points have been covered. If you live in one of the cities listed above, visit the exhibit of this New Car. At other points, see your local dealer next Friday. He will give you complete specifications, prices and an excellent conception of its unusual features.

PRACTICAL IMPORTANCE
OF PURITY OF VARIETY

The importance of using seed which is pure as to variety is measured by considerable extent by the purpose for which the resulting crop is intended. If the crop in question is to be used for feeding purposes, especially on the home farm, a slight mixture or even a considerable mixture of other kinds of varieties may not be a serious matter so long as these varieties of kinds mature with the main crop and possess high productivity and quality. There are a number of varieties on the market which do not differ widely in regard to these matters and which, while, therefore, not to be particularly objectionable if mixed to some extent with the main crop. On the other hand it is a risky business to continue the use of seed which is not at least relatively pure. In the first place most districts are particularly adapted to certain varieties, which, one year with another, are likely to yield better returns than are others. To allow an admixture of varieties which are of a lower order is to run the risk of reducing the value of the crop.

Even ripening in a crop of grain is something which practical men recognize to be a matter of very considerable importance. Where seed contains a mixture of other varieties which do not mature in the same length of time as the main crop, there is liable to be a lack of uniformity in ripeness of the crop harvested. Such conditions may result in a reduction in the value of the sold crop.

Where impure varieties are used for any considerable length of time certain undesirable types included in the mixture may increase in proportion to the better types for various reasons. They may, for instance, mature a little later than the prevailing type and thus cause the harvesting operations to be delayed until they become sufficiently well matured. By that time the better type may be dead ripe and may shell out considerably in the handling.

In the case of wheat grown for milling purposes, purity of variety is particularly important, as in this case uniformity of ripening has a direct bearing upon the commercial grade. Thus where there is a difference of even a few days in the date of maturity of different types in the wheat field the later types may be sufficiently prominent in the sample to cause a reduction of at least one grade. The practical importance of purity of variety is coming to be much more widely recognized than it once was, although there is still plenty of evidence that it does not receive the attention that it should, by a considerable percentage of grain growers. Absolute purity, of course, is difficult to maintain on an extensive scale, but if an honest effort be made to use seed which is known to be at least relatively pure very considerable losses may be avoided.

IS IT BIRDS OR NO BIRDS?

(By Frank Parley)

From time to time the writer is in receipt of interesting letters from people in various parts of Alberta, telling of their experiences with birds in their particular localities. Many of these letters recount valuable observations, which, if taken into account, should be made accessible to all interested in this line of natural history.

The only inducement offered the birds to make this restricted area (100 by 125 feet) their summer home was the proper placement of nesting boxes and the offer of suitable trees, shrubbery, etc. Approximately a dozen pairs of birds reared or attempted to bring forth their young on these two town lots, where probably a score of years ago, all was bare and birdless prairie.

Contemporary with the tremendous strides being made at the present time in clearing and breaking up the parklands of central Alberta, intensive efforts will have to be made to provide nesting places for the count-

less thousands of our birds which are being deprived of their natural breeding grounds. Unless concerted action is taken to counteract this natural course of events, the central and northern portions of the province will lose much of their attractiveness. Instead of a land which is renowned for its richness in bird life, it will become as barren and uninteresting as the monotonous plains of the south and east. It is absolutely necessary that the people of the urban centres recognize this fact.

A program of tree planting and the setting out of shrubbery should be instituted and carried out at the earliest possible moment.

It is gratifying to note that many of our farmers are leaving considerable areas of poplar, willow and other native bushes, surrounding their buildings, ostensibly for protection from the winter winds, but fortunately they will serve a two-fold purpose. These reservations will offer a sanctuary to many of our favorite and most useful birds.

A few years ago a careful census was taken of the birds which spent the summer on a half section of land about seven miles south of Camrose. It is assumed that all these birds nested and procured their food on this same area. The census showed 45 species of birds on the 320 acres, of which 21 were varieties as the Swainson hawk, short-eared owl, sharp-tailed and ruffed grouse, mallard, crow, robin, meadowlark, flicker, oriole, and several varieties of the vireo, flycatcher, sparrow and the warbler families. Some species were represented by as many as a dozen pairs nesting.

The total bird population of this piece of land was approximately 400 individuals or 200 pairs during the early summer. Allowing only four young to the pair and only one nesting for the season, one can easily realize the number of birds which this block of land supported.

The two following years this en-

tire area was cleared of all trees and brush and brought under cultivation. Since then no birds have nested within its confines. Fortunately, there were other large tracts of virgin land in the vicinity of which, no doubt, the birds took possession and carried out their nesting activities undisturbed.

But what will happen when all this valuable land is cleared and brought under cultivation. It is time now to give this important matter careful consideration.

PEACE RIVER OUTLET MAY BE FINANCED BY BRITISH MONEY

Ottawa, Nov. 18.—A project that has for its aim the opening up of the Peace River country by the construction of a railway through the Peace River Valley westward into British Columbia and south towards Vancouver via Queneston on the Pacific Great Eastern Railway, is being considered by the Dominion Experimental Station, Kapuskasing, Ontario, for the last three years. The average figure over a three-year period show that there is no significant difference in

the number of eggs laid, or in the cost of production between the two pens. This fact would seem to indicate that farmers who have a supply of skim-milk would not benefit by purchasing other animal feed for their poultry, while other poultry-keepers who may not have a supply of skim-milk may use the beef-scrap to good advantage. This test has covered a period of six months each year from November 1 to April 30. One hundred pullets were used. These were divided equally as to size and general development into two pens of 50 birds each. The ration given to each pen was the same, with the exception of the skim-milk

SKIM MILK VS. BEEF SCRAP FOR WINTER EGG PRODUCTION

(Experimental Farms Note)
It is generally acknowledged by poultry-keepers that laying hens require a certain amount of their protein supplied from animal sources. Vegetable protein cannot entirely replace animal protein for egg production. The two most common sources are beef-scrap and skim-milk; the former being a by-product of the abattoir sold on the market and the latter a by-product of whole milk found on most dairy farms.

With the object of comparing the results obtained in winter egg production from the use of skim-milk and beef-scrap as a source of animal protein, an experiment has been conducted at the Dominion Experimental Station, Kapuskasing, Ontario, for the last three years. The average figure over a three-year period show that there is no significant difference in

THOUSANDS OF WAR MEDALS HAVE NOT BEEN DISTRIBUTED

Ottawa, Nov. 21.—Thousands of war medals and war memorials still remain undistributed. Of the 66,104 1914 and 1914-15 stars received, 1860 are awaiting addresses of owners. British war medals on hand total 65,441 and victory medals 39,885. Nearly 64,800 memorial crosses have been sent to widows and mothers of soldiers who made the supreme sacrifice during the Great War, or whose subsequent deaths have been considered as attributable to their military service. Also there have been sent to the next of kin of such deceased personnel 59,257 memorial scrolls, and 58,410 bronze plaques.

The entire cost of production of the plaques and scrolls is borne personally by His Majesty King George V.

ALBERTA APPROVES SCHOOL LAND SALE

Edmonton, Nov. 24.—Proceeds of the school land sales now being conducted in the province under the direction and control of the dominion authorities will be used for educational purposes in Alberta, and the provincial government is not at all disturbed over the fact that hundreds of thousands of dollars will be realized out of the sales almost on the eve of the transfer of the natural resources to the province.

the number of eggs laid, or in the cost of production between the two pens. This fact would seem to indicate that farmers who have a supply of skim-milk would not benefit by purchasing other animal feed for their poultry, while other poultry-keepers who may not have a supply of skim-milk may use the beef-scrap to good advantage. This test has covered a period of six months each year from November 1 to April 30. One hundred pullets were used. These were divided equally as to size and general development into two pens of 50 birds each. The ration given to each pen was the same, with the exception of the skim-milk

and beef-scrap. The scratch ration consisted of two parts each of whole wheat and cracked corn and one part each of whole oats and barley. The dry mash consisted of equal parts of bran, middlings, corn meal, ground oats and barley. The beef-scrap was fed from a hopper and the skim-milk from a drinking vessel. A supply of each was available to the respective pens at all times. Mineral matter and green feed were also supplied to each lot.

Someone has defined a jury as "a body of men organized to find out which side has the cleverest lawyer."

CITY OF WETASKIWIN

RATEPAYERS' ANNUAL MEETING

The Citizens of Wetaskiwin are requested to attend the annual meeting of the ratepayers of the City of Wetaskiwin, which will be held in the

U.F.A. HALL

Friday, Dec. 9, 1927

at eight o'clock p.m.

MAYOR H. J. MONTGOMERY in the Chair.

The Mayor, Aldermen, School Trustees and Hospital Board will submit reports for the current year. All citizens are urged to take an interest in the City's welfare by being present. Candidates for office for ensuing year will be given an opportunity to address the meeting.

JOHN E. FRASER, City Clerk,

Watch for
Our Xmas
Specials

We have a large assortment of Christmas goods to choose from. A suitable gift for every member of your family. You will be well repaid to visit our store and see the wonderful display of Christmas goods.

FOUR HUNDRED FRENCH MARRIAGEABLE MAIDENS OFFERED FOR CHOOSING

Givet, France, Nov. 18.—Four hundred French maidens of marriageable age, bedecked in their finest apparel and ribbons, were offered for choosing in the historic Lovers' Fair here today, one of the most famous of traditional French rural fetes.

This Lovers' Fair, the first since the war, brought together hundreds of hopeful swains and blushing maidens, watched over by fond parents, anxious relatives and fatherly public officials who are doing everything they can to foster friendships which may blossom into marriage.

Even before the war the fair fell into decay. Maidens no longer waited for the fair to get prospective groons, there were two men to claim the hand of every eligible girl.

The war changed all that and today there is a dearth of marriageable men in France.

DOCTOR CLAIMS RIGHT TO LET HIS SUFFERING PATIENT DIE

Sheffield, England, Nov. 21.—The right of a doctor to let a suffering patient die rather than to seek to prolong the patient's life, has been asserted by Dr. A. T. Simpson at an inquest here.

This variation of the question—the right to kill—arose in an inquiry into the death of John Robinson, who Dr. Simpson had been treating for dropsy and heart disease.

On the day of the patient's death, the doctor found that Robinson had taken poison, and in view of the great pain Robinson had suffered in the past and would suffer in the future if he lived, Dr. Simpson decided to make no attempt to counteract the effects of the poison.

"I thought the best thing was to let him die," he told the coroner. "It was impossible to remove the poison from his stomach, and had it been otherwise, I would hesitate to have restored him, as life would have only been misery."

APPRECIATION

I would like to express my appreciation to the firemen who responded so quickly to the fire call from my house and to the quick and effective service rendered in extinguishing the fire. I wish also to thank the friends and acquaintances who so kindly came in and gave assistance.

HORATIO C. COOKE.

NOTICE OF SALE OF IMPOUNDED ANIMALS

Under the Domestic Animals Act (Municipalities).

To whom it may concern:

Notice is hereby given that by virtue of power granted under Section 44 of The Domestic Animals Act (Municipalities) and the Municipality of Montgomery No. 458:

One dark grey Gelding, white face, about three years old, weighing about 1200 lbs., one grey Gelding, star on face, about two years old, weighing about 1200 lbs., one grey mare colt, rising two. There is no visible brand on any of them.

Will be sold at the Pound—kept by the undersigned on the N.W. 1/4, Sec. 19, Twp. 47, Rge. 25, West of the 4th Meridian, at 2 o'clock, on Monday, the 12th day of December, 1927.

Dated 29th November, 1927.

MARTIN PETERSON, Poundkeeper, Phone R2206, Wetaskiwin.

PARALYSIS HOME TO OPEN SHORTLY

Edmonton, Nov. 24.—The opening, early in the new year, as an adjunct to the University hospital, of a temporary hospital for the treatment of the after-effects of infantile paralysis, was announced Thursday morning by Hon. R. G. Reid, acting minister of health, in an address before the nineteenth annual convention of the Alberta Association of Municipal Districts, at the Memorial hall.

Turning aside from purely municipal district affairs, Mr. Reid dealt with the value of the traveling health clinics, and later, with infantile paralysis, and its after-effects.

It had been informed, he told his audience, that fully fifty per cent of infantile paralysis cases in the province that did not prove fatal were in need of hospital treatment, some for so long as two years, to cure the after-effects of the disease, and he announced that the government realizing this need, was making the necessary provision as stated.

Dealing with the value of the traveling clinics, Mr. Reid stated that in a period of nine months' inspection 1,250 children were found with defective vision; 233 defective hearing; 3,801 diseased tonsils and adenoids, and 4,149 with defective teeth.

\$500,000 WORTH BLACK FOXES TO LEAVE 'ISLAND'

Halifax, Nov. 17.—Seven carloads of silver black foxes, valued at approximately \$500,000 and comprising the largest single shipment ever made from Prince Edward Island ranches, occupied the second floor of Pier No. 2, Immigration building Wednesday, awaiting shipment Thursday on the Norwegian-American liner Stavangerfjord to Bergen.

Foxes from practically all Prince Edward Island ranches are included in the shipment, which comprises a total of 1064 animals. Some 20 Norwegian buyers have been in Prince Edward Island for the past three or four weeks in connection with the shipment.

MANY PIGS LOST IN EDMONTON FIRE

Edmonton, Nov. 21.—One hundred and twenty pigs were destroyed in a fire which broke out Saturday afternoon at the McLeod Pig Farm, situated on 143rd street, near the river, section of 102nd avenue. Nos. two and eight stations responded, but in spite of every effort on the part of the fire-fighters, the flames had made such rapid headway in the barn before their arrival that saving the animals was an impossibility.

It is reported that there was \$3000 insurance on the destroyed property, but that this figure would not cover the losses.

FINGERPRINTS SENT OVER SEAS BY RADIO NOW

London, Nov. 18.—The successful use of radio to exchange fingerprints between the police of Scotland Yard and Chicago was announced here Thursday.

Fingerprints exchanged by wireless enabled the London police to identify a man held there as one wanted in the United States city. The authorities indicated that the man would be returned to Chicago.

NEW NORWAY WEST

The Zion Ladies Aid will hold their annual bazaar in Zion church on Dec. 2, at 3 p.m. Many useful articles suitable for Christmas presents will be offered for sale. Lunch will be served.

MALMO

The angel of death visited the home of Mr. and Mrs. Andrew Baskas on Friday and removed their little daughter at the age of three months. The funeral took place on Sunday, service being conducted by Rev. O. I. Miller. The interment was in the Svea cemetery.

VERDUN

Charlie Clausen, who has been thrusting at Mandare, arrived home. Ernest Humble is able to be around again after his recent illness.

Mr. and Mrs. Edgar Alm, of Bitter Lake, visited with the former's parents on Sunday.

Mr. and Mrs. Widen were Sunday visitors at the Biltmore hotel in Edmonton.

Mr. George was an Edmonton visitor this week.

A number of young folks enjoyed a good time at the home of Mr. and Mrs. Fontaine Sunday evening.

The Alm family were guests of Mr. and Mrs. Schriebers on Sunday afternoon.

The home of Mr. and Mrs. Nell Campbell was the scene of a large gathering on Thursday afternoon last, when about forty neighbors and friends gave Miss Jessie Campbell a very pleasant surprise in the form of a miscellaneous shower.

The bride-to-be received a large number of beautiful gifts. After opening the parcels and thanking each one, a dainty lunch was served. A very pleasant time was spent by all present and each one wished the future bride much happiness.

Miss Maylan Vanocok, who has been visiting her grandmother, Mrs. Trautman, returned home Thursday.

DEDICATION AT CAMROSE

The Missouri Lutherans at Camrose, who, until the arrival of Rev. Kaestle in August, had been cared for by various pastors, have made gratifying progress. Only recently reported, they have purchased the Roman Catholic church and property connected with it and on Sunday, Dec. 4th, intend to dedicate it. An extensive program has been arranged, which should draw many visitors. According to reliable information received here, the program is as follows: Sunday, Dec. 4th, 10:45 a.m., English service, with Rev. H. Boettcher of Stony Plain, as preacher; 2:30 p.m., English and German service, Rev. Prof. A. H. Schwarman of Concordia College, Edmonton and Rev. Arthur Appelt of Wetaskiwin as preachers; 7:30 p.m., illustrated lecture "The Life and Time of Martin Luther." Monday, Dec. 5, 7:30 p.m., "Is the Bible out of date?" speaker, Rev. A. J. Mueller of Edmonton; Tuesday, Dec. 6, "Does man need a Saviour?" speaker, Rev. W. C. Elliott of Letuc; Wednesday, Dec. 7, 7:30 p.m., "What must I do to be saved?" speaker, Rev. C. Thels.

Rev. Appelt will be absent from the city on Sunday owing to the dedication services, and there will be no morning or evening service in Zion Lutheran church, but Sunday school will meet as usual.

WARNS TURKEY SHIPPERS OF FLY-BY-NIGHT DEALERS

Chicago, Nov. 17.—"Don't be a worm," says Harrison F. Jones, executive secretary of the National Poultry, Butter & Egg Association, Chicago, when interviewed concerning alluring circulars sent broadcast to turkey producers throughout the country by "fly-by-night" commission merchants.

"One such circular," says Mr. Jones, "after making alluring and extravagant promises, says that the 'early bird catches the worm,' and Mr. Jones says that this undoubtedly is true.

"These 'fly-by-nighters' adopt high sounding trade names, conceal their real names and identities, rent temporary quarters in the great consuming markets and then by means of alluring promises of premium prices and quick returns, swindle the farmer or out of his holiday poultry shipments, because immediately after the holiday season these alleged commission merchants close up shop fly away, and are not heard of until the next year, unless, in the meantime, they are apprehended and sent to jail."

Mr. Jones concludes by stating that every large consuming market has many reputable dealers and he urges country shippers to seek them out and to shun the "fly-by-nighters."

PROVINCE AND C.P.R. AGREE ON SPUR LINE FOR PONOKA HOSPITAL

Edmonton, Nov. 23.—An agreement has been reached between the provincial government and the Canadian Pacific Railway for the construction and operation of a spur from the railway line at Ponoka to the grounds of the mental hospital. The spur, which will be used for the purpose of making coal and other deliveries to the institution, will be slightly more than one mile in length and will leave the main line at a point about two miles south of the Ponoka station.

WOMAN AND CHILD DIE IN BLAZE IN EDMONTON

Edmonton, Nov. 19.—Trapped at the front door of her home at 10326 Ninety-fifth street, at 2:30 a.m. Saturday, with her 15-month-old baby girl in her arms, Mrs. C. M. Tall, wife of a well known Edmonton photographer, was burned to death, with the child, while her husband, thinking that she was right behind him, carried two other children to safety down the back stairs.

The fire broke out in the kitchen, where a gas stove had been left burning. The flames spread rapidly, and the family was unable to escape.

The fire department arrived within minutes, but the woman and child had already died. The cause of the fire is still under investigation.

FREE \$200.00 In Cash Given Away

First Prize \$200.00
Second Prize \$100.00
Third Prize \$50.00
Fourth Prize \$25.00
Fifth Prize \$10.00
Sixth Prize \$5.00
Seventh Prize \$2.50
Eighth Prize \$1.25
Ninth Prize \$0.62
Tenth Prize \$0.31

How many objects can you find in the picture below that commence with the letter 'B'?

To the person who finds the largest number, we will pay the sum of \$200.00 in cash and to the person finding the second largest number we will pay the sum of \$100.00 in cash and so on down the list of prizes; provided you comply with a few conditions, namely: 1. That you send in eight boxes of BORDERS of 25¢ per box. 2. That you send in any money in advance for the prize, we are perfectly willing to treat you with. 3. That you are endeavoring to make sales.

Send in your list of objects at once, like a request for 8 boxes of BORDERS. When your reply is received, the BORDERS will be sent you by return mail; together with the names and addresses of persons who have been awarded prizes to the value of \$100.00. BORDERS are also selling puzzles and similar sales.

MANITOBA TO COPY ALBERTA LIQUOR LAWS

Winnipeg, Nov. 18.—The new liquor legislation which the provincial government plans to get passed by the legislature by Christmas and enforced as soon afterwards as possible, was approved by the government party in caucus at the legislature building early today.

After many hours of discussion, the bill was adopted, with only minor changes, and it will go before the house Thursday, December 1.

No official statement was made regarding the scope and character of the measures, but from unofficial sources it was ascertained that the liquor legislation will, in a general way, follow the lines of the Alberta act.

Unofficially, the main features of the bill are:

1. Sale of beer by the glass, sale of hard liquor by the bottle on the "cash and carry" system; sale of hard liquor by the case with delivery by the government liquor control commission.

The new legislation is aimed at the bootlegger, and every effort will be made to curb the activities of illicit liquor sellers throughout the province.

CALGARY MANAGER HAS THRILLING RIDE IN NEW FORD CAR

"We saw the new Ford car and we had the thrill of riding in it," said H. R. Cottingham, manager of the Calgary branch of the Ford Motor Company of Canada, Limited, who arrived home on Thursday, November 24th, after attending the annual Branch Managers' convention at the company's home offices and factory in Ford, Ont.

"We were delighted with the new car and felt that it will introduce a new era in highway transport. We went to the factory expecting a lot, but we saw more than we expected. In appearance the car is everything that could be desired, and in point of performance it surprised us. It gets away like a shot out of a gun. It negates any character of road with perfect ease. It is capable of very high speed and whatever speed it is travelling it seems to hug the road, and whatever road it is travelling on, it seems to iron everything out into a paved highway. We watched the new car going through grueling tests and we saw the cars coming through the factories and realized then why it must be several months before the supply is in any way adequate to the public demand. Anyone who could see what we saw would no longer wonder why it has taken a long time to build the new car. We found that not only new design has been evolved, but revolutionary means of manufacturing have been invented, production machines of entirely new kinds have been designed and built to facilitate manufacture. Necessarily it will be some time before these machines can be secured in sufficient quantity to effect the enormous volume of production that is required to meet the demand.

Seven models \$46 to \$465

Illustrated above is the Hastings—one of the Royal Series. Five-tube R. F.—for battery or "Light-Socket" operation. Circuit balanced by Wheatstone Bridge. Console cabinet by M. Logan.

WEEKLY BULLETIN

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, November 26, 1927.)

New Townsites to be Offered for Sale
Eleven new townsites in Alberta will be offered for sale in the spring of 1928, as announced the land department of the Canadian Pacific Railway. These are located along the Outkale-Whitford Lake branch of the C.P.R., the new line being graded as far as Whitford Lake, ready for the laying of steel during the next few weeks.

More Than Half of Wheat Crop Harvested by Pool

Out of 335,500,000 bushels of wheat inspected in the western inspection division for the crop year 1926-27, a total of 179,950,242 bushels, or 53.6 per cent was handled by the central selling agency of the Wheat Pool, according to the report of the president and directors of the central board, presented at the annual meeting of delegates of the Alberta Wheat Pool in Calgary during the past week. In the past year the Pool shipped grain direct to 24 countries through 60 ports, according to the report of the president and directors of the central board, presented at the annual meeting of delegates of the Alberta Wheat Pool in Calgary during the past week. In the past year the Pool shipped grain direct to 24 countries through 60 ports, according to the report of the president and directors of the central board, presented at the annual meeting of delegates of the Alberta Wheat Pool in Calgary during the past week. Alberta Grand Champion Steer Brings High Price

The grand champion steer at the Toronto Royal Winter Fair, "Chosen U.A.," a Shorthorn bred and exhibited by the University of Alberta, sold at auction to T. Eaton Co. Ltd., following the show for the record price of \$1.65 per pound, or a total of \$2,219.25. The Aberdeen Angus steer bred by C. H. Richardson of Bowden, and contributed to the University of Alberta, after winning the championship of this breed for the second year in succession, was purchased at the same sale by the Canadian Packing Co. Ltd., of Toronto, at 30.5 cents per pound, or a total of \$450. The price obtained for the grand champion steer following last year's show was 55 cents per pound. The grand champion steer will also be shown at the Chicago International Livestock Show before being delivered to T. Eaton Co. Alberta Crop Movement Aids Vancouver

"The Alberta crop movement is the greatest factor in Vancouver's prosperity so far as foreign trade is concerned," stated A. M. Dollar of Vancouver, President of the Canadian Chamber of Commerce, who visited Calgary and Edmonton during the past week.

"Between October 1 and the end of January next, it looks to me as if Vancouver will move between eleven and twelve million bushels of wheat, practically all of which will be from Alberta," added Mr. Dollar. The grain movement, he stated, was proceeding

smoothly, with plenty of ships available at Vancouver, and little difficulty is anticipated in handling shipments for some time yet.

Public Health Officials Form New Association

Formation of the province-wide "Alberta Public Health Officials' Association," representative of the medical health officers and similar officials of all Alberta communities was carried out at a meeting in Edmonton last Monday. The following officers were elected: Honorary President, Dr. M. R. Bow, deputy minister of health; President, Dr. T. H. Whitlaw, Edmonton; first vice-president, Dr. Duncan Gow, Calgary; second vice-president, Dr. Vallance, sanitary inspector, Lethbridge; secretary-treasurer, Dr. Jenkins, medical inspector of health for Alberta.

Wheat Pool Directors Re-elected

Directors of the Alberta Wheat Pool with one exception were re-elected at the annual meeting of Pool Delegates at Calgary last week. The exception is in the North Calgary Pool district, where the retiring director has gone to London, England, with D. L. Smith of Winnipeg, to open the old country office of the central selling agency, and the election in this district was deferred.

Directors re-elected were: Edmonton, George Bennett; Camrose, Lew Hutchingson; Red Deer, H. W. Wood; South Calgary, Ben Plumer; Claresholm, J. J. Strang, and Lethbridge, C. Jensen.

Alberta Livestock Winnings, Toronto Royal Fair, 1927

Establishing a record never previously equaled by any other province in the Dominion, Alberta by the awards won this year at the Toronto Royal Winter Fair offers substantial proof of the high quality of its livestock. The winning of forty-nine prizes and championships by the forty-six head of cattle shown, seventeen awards by the thirteen horses shown

Face Now Clear of LARGE, RED PIMPLES

Mrs. John R. McLeod, North River Centre, N.S., writes: "I had large red pimples on my face and I tried all manner of things to clear up my complexion, but nothing seemed to do any good."

"My brother got me a bottle of

and it seemed to help me so much I got two more bottles, and when I had them used my face was perfectly clear. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

and twenty-one ribbons by the twenty-one sheep shown is an indication of the type of animals sent from Alberta to meet the keen competition which always appears in the various rings at Toronto.

Especially notable is the showing made by the University of Alberta with the best steers of the different breeds contributed by various breeders in the province and fitted for show by the department of animal husbandry and almost equally good are the awards secured in various classes by other Alberta livestock owners who prepared their own exhibits for this great Canadian show. Alberta's share of the honors, as announced from Toronto at the conclusion of judging and subject to revision, is as follows:—4 Grand Championships, 1 Reserve Grand Championship, 10 Championships, 4 Reserve Cham-

pionships and one special prize, 25 First Prizes, 12 Second Prizes, 8 Third Prizes, 8 Fourth Prizes, 5 Fifth Prizes, 4 Sixth Prizes, 1 Seventh Prize, 2 Eighth Prizes, 1 Twelfth Prize.

APPRECIATIVE AUDIENCE ATTEND CONCERT

A large and appreciative audience was in attendance in Pinyon's hall on Monday, when the Edmonton Women's Musical Club Chorus, conducted by Madame Duggan, motored from Edmonton and rendered the following program of music and readings:

Chorus, (a) "Dance, Golden Leaves," (b) "Boats of Mine"; piano solo, "Impromptu," Mrs. J. A. Buchanan; readings, selected, Mrs. Alice Lucas; flute solos, Mrs. Hubert Norbury; quartette.

Heart Was Weak Nerves Were Bad Couldn't Do Her Work

Mrs. A. Watts, Bond Head, Ont., writes:—"I have been so greatly benefited by your Milburn's Heart and Nerve Pills I feel I should write and tell you how grateful I am for your splendid remedy."

"My heart has been weak for a couple of years, and as a consequence my nerves became very bad."

"I was unable to do my work, could not sleep at night, and seemed to be gradually getting worse."

"I tried several remedies, but received no benefit from them, and was becoming very much alarmed by my condition. One day a friend advised me to try

"I was rather doubtful about them as I had become discouraged trying so many things. However, she persuaded me to get a box, and how thankful I am to have taken her advice. I have taken four boxes, and am on my fifth, and I feel that I am very much better."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

WIESENFORD W.I.

The Wiesenford W.I. held their annual Thanksgiving and Armistice supper in the Telford schoolhouse. The members entertained their families and friends, and over eighty persons enjoyed the sumptuous meal provided by the women.

Mrs. W. Kirk, the president, gave a short address of welcome, after which the guests sat down to the heavily laden tables.

The supper over and everybody feeling very well satisfied, the men assisted in clearing the school for an impromptu dance, for which Mr. R. Munn and Mr. R. Clarke provided the music.

The members are all asked to make a special effort to attend the annual meeting, to be held at the home of Mrs. J. Smith, Saturday, Dec. 3.

The November meeting of the Wiesenford W.I. was held at the home of Mrs. E. Neff. It was rather a chilly day, but a good many of the members managed to get out.

The report of the presentation of flags to the Wiesenford and Telford schools was read and approved, also the financial report to date was read and approved.

The details for the Thanksgiving supper were arranged and the table committee was chosen.

The members took advantage of the hostesses piano and enjoyed an hour of singing and music, after which tea was served, Mrs. Neff being assisted by her daughter-in-law, Mrs. L. Rutherford.

Gas Spoiled Sleep, Made Her Dizzy

"For years I suffered from gas and constipation. Used to get headaches and dizzy spells. The first dose of Adierika gave me relief. Now I rest peacefully. Adierika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowels and removes old waste matter you never thought was there. No matter what you tried for your stomach, Adierika will surprise you. Northern Drug Co., Wetaskiwin, (in Millet by Graham's Pharmacy) (\$3)

ITEMS OF INTEREST

Steel is fireproof, that is, it will not burn, but it will crumple up in one-fourth the time that it takes to burn out a pine beam.

The Chinese learned how to make paper by watching wasps build their nests. Much of our knowledge is really second hand.

When boring for water in the desert of Sahara, it is on record that live fish have been found two hundred feet down in the earth.

A company has leased 3,000,000 acres between the Athabasca and Great Slave Lakes for grazing purposes, and proposes to place there some 5,000 head of reindeer, to be imported from Alaska. The prospect for success seems to be encouraging.

A bureau of chemistry has shown by scientific tests that eggs which had lain in cold storage for nine years have practically the same nutritive value as fresh ones. We are prepared to believe this; but we prefer someone else to eat the eggs.

The permanent wave for women's hair is not an invention of to-day, but goes back as far as the early Romans in 168 A.D. and may go back much farther. So says Professor S. H. Wober, of Princeton University.

German postal rates are being increased and will be four cents for a letter, and two cents for a postal card, with a two-cent rate for local letters. It is estimated that this increase will cost \$250,000,000 to the German income.

Football pants are now being treated with pyroxylin to make them impervious to water and so permit the player to tumble around in slush and mud without getting wet. If this works with football pants, it will probably be tried with farmers' and fishermen's nether garments.

A German scientist predicts that in the days to come, after reading our morning paper we can soak it in acids, and make it fit for food, and then eat it for breakfast. We think that some of the papers will have to be subjected to pretty strong acids to find any sugar in them.

THINK IT OVER!

KEEP SUNDAY DIFFERENT

There is no use attempting to restore the Sunday of many generations ago, nor even that of yesterday, but to most of us it is clear that to lose our Sunday would be a great calamity, and the next thing to be done is to see that we make it at least so distinctive that it will stand out in the week as not only a day of rest, but also as a day which is so necessary to us as to be worthy of strong efforts for its permanent perpetuation.

MILLET LOCAL NEWS

Miss Marion Graham spent the week end at home.

Mr. and Mrs. Knight of Malmurst, were Millet visitors on Monday.

Mrs. N. Fyatro, of Oshon, spent a few days with friends in Millet last week.

The Dowler Grain Company is erecting a warehouse immediately north of the Community Hall.

Mrs. Keith of Peace River, with her two little daughters, are guests of her mother, Mrs. J. Dinney.

Mr. Marion, who has been in the blacksmith business in Killam, is taking up residence at North Pigeon Lake.

Mr. E. O. Mitchell who is on his way back to England, is the guest of his brother, Mr. A. P. Mitchell and Mrs. Mitchell.

Mrs. T. Dougherty of Innisfail, a sister of Mrs. T. Bider, with whom she had spent a couple of days, left for home on Monday.

The office of Mr. L. P. Wright, village secretary and secretary of Millet S.D., is in the same building with that of Mr. A. P. Mitchell.

The sale of work by the Ladies' Aid of the United Church comprises aprons, centres, tea cloths, children's dresses and a quilt, besides other attractions.

Mr. A. P. Mitchell has removed his office to the old Post Office building from the Community hall, where it has been located since the disastrous fire of October 24th.

The Ladies' Aid of the United Church are holding their bazaar, sale of home cooking and afternoon tea in the church on Saturday afternoon at 2 o'clock. Everyone welcome.

On Saturday morning the citizens of Millet again answered the call of the fire-bell and waged a battle against fire at the blacksmith shop of Mr. W. Schaefer. They succeeded in extinguishing the blaze, but not before it had destroyed the roof of the building. Mr. Schaefer's car was badly damaged.

The Trade Extension Committee of the National Lumber Manufacturers Association wants a slogan about wood.

The contest is open to everybody. All the information you need is in a free book, "The Story of Wood," which contains the Official Blanks on which all Slogans must be submitted.

First Prize . . . \$5,000.00
Second Prize . . . 2,000.00

Official Distributing Station for Contest Booklets and Blanks

THE STORY OF WOOD

Remember—these slogan contest prizes are hardly ever won by professional writers or technical experts. Nearly always the winners are people who never expected to win. They just hit on the simple way to express the big central idea. You can do that as well as anybody.

This office is Official Headquarters for the Lumber Slogan Contest in this locality.

Don't put it off. Come in for your free copy of "The Story of Wood" today

ANGUS THEATRE

FRIDAY, 8 P.M. SATURDAY, 2:30, 7:30 and 9:30 P.M.
FRED THOMSON AND SILVER KING in
"JESSE JAMES"
 Here is the true story of Jesse James, history's most colorful, misunderstood character. Loved by many, feared by most, but admired by all, the original cowboy cavalier has come to life again.
 Comedy and News

MONDAY ONLY, 8 P.M. December 5

"IRISH HEARTS"

You'll enjoy this delightful comedy-drama of a little colleen who showed New York that she wasn't nearly so green as the shamrocks she wore on her heart.
 Comedy and Review

TUESDAY ONLY, 8 P.M. December 6

RIN-TIN-TIN in
"JAWS OF STEEL"

Rin-Tin-Tin has never given a more remarkable exhibition of canine intelligence than in this story of the great outdoors. He again proves that he is indeed the wonder dog of all times.
 Comedy

WEDNESDAY ONLY, 8 P.M. December 7

"THE LONE EAGLE"

With **BARBARA KENT** and **RAYMOND KEANE**
 Great in theme, gripping in drama, crashing pictures and the death-dealing rattle of machine guns make this the great air picture of the year.
 Comedy and Felix

 BEFORE SELLING YOUR DRESSED POULTRY
 INSTRUCTIONS ON DRESSING POULTRY

In dressing poultry, have birds thoroughly fattened, starve at least twenty-four hours before killing, giving them lots of water to drink. Crops must be entirely free from feed. Do not wring neck. Hang by the feet and bleed from the mouth. Dry pluck all birds and be particular to remove all feathers. Wash feet clean after dressing. Spread the birds out to have them thoroughly cooled before packing.

Yours truly,

Mutual Creamery Co.

 J. E. PEARSON,
 37-11a City Clerk and Assessor.

THE MOOSE

Standing on the edge of a snow-covered precipice with its magnificent head lifted upward, stood a moose. The setting sun dyed the snow a light crimson as it painted the western horizon in colors beyond human description. Courage, fortitude, agility and a love of freedom were portrayed in every line of the moose. Carefully scenting the air, the animal slowly descended down the trail. The crimson shadows swiftly faded away and were followed by the dark shadows of the long winter night. The Loyal Order of Moose is comparable to this creature of bygone days, from whom it derived its name. During the year of 1888 a body of intelligent men decided to establish a lodge, the main objective being a fraternal order and good fellowship. But this objective soon gave way to a nobler and more human one. Due to the ingenuity and foresight of the bold and little Welshman, James J. Davis, the lodge decided to render the people all the humanitarian service of which it was capable. Two things

A. J. INGRAM, D.R.G. & D.S.

which have won this order national recognition and fame were the establishing of Mooseheart and Moosehaven cities. Up to the present the Loyal Order of Moose is protecting, educating and training 124 children, 150 mothers in Mooseheart City, 200 old and aged fathers and mothers in the city of opportunity at Orange Park, Florida, living in the bungalows happy and contented together to spend their happy old days in peace contentment. There is another service which the order is giving to the world, that is extension service to 266 families, 1087 children and parents and 208 old, aged and totally disabled persons. There are three families in Alberta, Taber, Medicine Hat and Edmonton.
 In caring for little children and aged people we are contributing more to God than by any other act, for "the poor you have with you always." The salvation of the world rests with the little child, because always a little child shall lead them. In conclusion, I want to repeat the words of Sir John Daniels, Grand Dictator of Great Britain: "The Moose are destined to play a big part in cementing friendship and good fellowship and international bonds of fellowship. The order is doing the real work of the League of Nations set out to accomplish. The League of Nations started at the wrong end. No one man can force friendship or anything else down a man's throat, unless one is prepared to receive it. The Moose leads them along, man to man, heart to heart. This fraternity will undoubtedly be the means of forming an international brotherhood of man from continent to continent the world over. When the international chain is completed and encircles the globe, you will find that Great Britain will be a great link in the chain." Applications for membership into the local lodge are coming in from the surrounding country and city. The lodge will be instituted at a later date. Get your membership card and save \$10. Initiation fee \$10, dues \$15 per year payable quarterly in advance.

A. J. INGRAM,
 Wetaskiwin Hotel.
